DATA CODEBOOK

October 2017 Project Dataset

Published by the Virginia State Crime Commission, September 2021

Virginia Pre-Trial Data Project: Data Codebook

The purpose of this data codebook is to provide detailed information on each variable included in the *Virginia Pre-Trial Data Project: October 2017 Cohort*.

The data contained within the *Virginia Pre-Trial Data Project* dataset is a compilation of information and variables provided by numerous state and local government agencies across Virginia. Such data reflects the inherent strengths and limitations of each of these different data sources. The government agencies that provided data for the *Project* include:

1. Supreme Court of Virginia, Office of the Executive Secretary
 - ✓ eMagistrate Sytem
 - ✓ Circuit, General District, and Juvenile and Domestic Relations District Court Case Management Systems
2. Alexandria Circuit Court
 - ✓ Alexandria Circuit Court Case Management System
3. Fairfax County Circuit Court
 - ✓ Fairfax County Circuit Court Case Management System
4. Virginia Department of Criminal Justice Services
 - ✓ Pretrial and Community Corrections Case Management System (PTCC)
5. Virginia State Police
 - ✓ Central Criminal Records Exchange (CCRE)
6. Virginia Department of Corrections
 - ✓ Corrections Information System (CORIS)
7. Virginia Compensation Board
 - ✓ Local Inmate Data System (LIDS)

WORKING DEFINITIONS

PRE-TRIAL PERIOD:

Definition: the various stages of a criminal case from the time a defendant is charged with an offense until the final disposition (trial and/or sentencing) of the matter.

CONTACT EVENT:

Definition: a contact event includes all charges against a defendant in the same jurisdiction on the same day and having the same CBR number. In the eMagistrate System, CBR stands for “Commit, Bond, Release” and refers to any one of these bail processes. Data is based on individuals. For individuals having more than one contact event during the month of October 2017, data captures the earliest contact event only. For defendants charged with multiple offenses on the same day where the offenses were to be heard in different courts (e.g., domestic assault and battery charge in J&DR District Court and an assault and battery of a law enforcement officer charge in General District/Circuit Court), records were grouped by court and retained as separate events.

Source: the primary source of this information was the OES eMagistrate System. If the information was not available in the primary source (i.e., summons and direct indictments), the information was collected from the OES Court Case Management System, as well as the Fairfax and Alexandria Circuit Court Case Management Systems.

BAIL:

Definition: the pretrial release of a person from custody upon the terms and conditions specified by order of an appropriate judicial officer.

BOND:

Definition: the posting by a person or their surety of a written promise to pay a specific sum, secured or unsecured, ordered by an appropriate judicial officer as a condition of bail to assure performance of the terms and conditions contained in the recognizance.

Source: the primary source of the initial bond type and the bond type at release was the OES eMagistrate System. If the information was not available in the primary source, the information was collected from the OES Court Case Management System, as well as the Fairfax and Alexandria Circuit Court Case Management Systems. If the bond type at release was not identified within the eMagistrate System, staff

next attempted to identify the bond type within the Compensation Board's LIDS database, followed by the Court Case Management Systems, and finally, by calling individual Clerks' Offices to determine the bond type at release (if released).

Notes: the dataset only captures the bond type at initial contact and at ultimate release (if released). The dataset does not capture any modifications to the bond type or bond conditions in between the initial contact and ultimate release (if released). In a small number of cases, more than one type of bond was ordered for the charges in a defendant's October 2017 contact event. In such instances, a hierarchy was applied to select the most restrictive type of bond ordered. From most restrictive to least restrictive: secured, unsecured, personal recognizance, summons.

SUMMONS:

Definition: the release of the defendant by a law enforcement officer or magistrate after providing the defendant with written notice of a time and place to appear and receiving a written promise by the defendant to appear.

Source: OES Court Case Management System, as well as the Fairfax and Alexandria Circuit Court Case Management Systems.

PERSONAL RECOGNIZANCE (PR) BOND:

Definition: the release of the defendant after the defendant makes a written promise to appear before the court and abide by any terms of release.

Source: the primary source of the initial bond type and the bond type at release was the OES eMagistrate System. If the information was not available in the primary source, the information was collected from the OES Court Case Management System, as well as the Fairfax and Alexandria Circuit Court Case Management Systems. If the bond type at release was not identified within the eMagistrate System, staff next attempted to identify the bond type within the Compensation Board's LIDS database, followed by the Court Case Management Systems, and finally, by calling individual Clerks' Offices to determine the bond type at release (if released).

UNSECURED BOND:

Definition: the release of the defendant after the defendant makes a written promise to pay a specific sum, without actually paying such specific sum; however, if the defendant fails to appear before the court, the defendant may be liable for the monetary amount of the bond.

Source: the primary source of the initial bond type and the bond type at release was the OES eMagistrate System. If the information was not available in the primary source, the information was collected from the OES Court Case Management System, as well as the Fairfax and Alexandria Circuit Court Case Management Systems. If the bond type at release was not identified within the eMagistrate System, staff next attempted to identify the bond type within the Compensation Board's LIDS database, followed by the Court Case Management Systems, and finally, by calling individual Clerks' Offices to determine the bond type at release (if released).

SECURED BOND:

Definition: the release of the defendant after either the defendant or their surety posts a written promise to pay a specific sum. This can include a deposit of cash or a solvent surety (such as a bail bondsman, family member, or friend) who agrees to enter into the obligation for the bond amount.

Source: the primary source of the initial bond type and the bond type at release was the OES eMagistrate System. If the information was not available in the primary source, the information was collected from the OES Court Case Management System, as well as the Fairfax and Alexandria Circuit Court Case Management Systems. If the bond type at release was not identified within the eMagistrate System, staff next attempted to identify the bond type within the Compensation Board's LIDS database, followed by the Court Case Management Systems, and finally, by calling individual Clerks' Offices to determine the bond type at release (if released).

HELD WITH SECURED BOND (ENTIRE PRE-TRIAL PERIOD):

Definition: a judicial officer ordered that the defendant be detained subject to certain conditions of release, including a secured bond, and neither the defendant nor their surety posted a written promise to pay a specific sum in order to secure the defendant's release. * This variable is referred to as "detained on secured bond for entire pre-trial period" in the main body of the report.

Source: the primary source of the initial bond type was the OES eMagistrate System. If the information was not available in the primary source, the information was collected from the OES Court Case Management System, as well as the Fairfax and Alexandria Circuit Court Case Management Systems. If the bond type at release was not identified within the eMagistrate System, staff next attempted to identify the bond type within the Compensation Board's LIDS database, followed by the Court Case Management Systems, and finally, by calling individual Clerks' Offices to determine the bond type at release (if released).

HELD WITHOUT BOND (DENIED BAIL):

Definition: a judicial officer ordered that the defendant be detained without any conditions of release.

Source: the primary source of the initial bond type was the OES eMagistrate System. If the information was not available in the primary source, the information was collected from the OES Court Case Management System, as well as Fairfax and Alexandria Circuit Court Case Management Systems. If the bond type at release was not identified within the eMagistrate System, staff next attempted to identify the bond type within the Compensation Board's LIDS database, followed by the Court Case Management Systems, and finally, by calling individual Clerks' Offices to determine the bond type at release (if released).

WHETHER DEFENDANT RECEIVED PRETRIAL SERVICES AGENCY SUPERVISION:

Definition: measured by whether the defendant received pretrial services agency supervision as a condition of bond during the pre-trial period.

Source: the primary source of this information was the Department of Criminal Justice Services' (DCJS) Pretrial and Community Corrections Case Management System (PTCC).

Notes: the dataset captures whether the defendant actually received pretrial services agency supervision during the pre-trial period. If a defendant was ordered to undergo pretrial services agency supervision as a condition of bond, but the defendant never reported to the pretrial services agency, that defendant did not receive pretrial services agency supervision.

DEFENDANT DEMOGRAPHICS

1. Internal Study Identification Number (InternalStudyID)

Definition: Measured as the internal study identification number assigned to each individual defendant.

Source: The primary source of this information was an internal Virginia Criminal Sentencing Commission staff determination.

Notes: None.

2. Internal REQ REC# (REQ_REC#)

Definition: Measured as the internal request number assigned to each individual defendant for the Virginia State Police (VSP) record request.

Source: The primary source of this information was an internal Virginia Criminal Sentencing Commission staff determination.

Notes: None.

3. Sex of Defendant (Defendant_Sex)

Definition: Measured as the recorded sex of the defendant at the time of October 2017 contact event.

Source: The primary source of this information was the OES Court Case Management System, as well as Fairfax County and Alexandria Circuit Court Case Management Systems. If the information was not available in the primary source, the information was collected from the defendant's Virginia State Police criminal history record.

Notes: None.

Label	Code
Female	F
Male	M
Unknown	U

4. Race of Defendant (Defendant_Race)

Definition: Measured as the recorded race of the defendant at the time of the October 2017 contact event.

Source: The primary source of this information was the OES Court Case Management System, as well as Fairfax County and Alexandria Circuit Court Case Management Systems. If the information was not available in the primary source, the information was collected from the defendant's Virginia State Police criminal history record.

Notes: The Virginia State Police uses the race codes standardized by the National Crime Information Center (NCIC). While the OES Court Case Management Systems have the capacity to capture the Hispanic ethnicity, NCIC rules of classification categorize the Hispanic ethnicity within the White racial category. As such, individuals of Hispanic ethnicity are included within the White racial category.

Label	Code
Asian or Pacific Islander	A
Black	B
American Indian or Alaskan Native	I
Unknown	U
White	W

Birthdate (Defendant_Birthdate)

Redacted – Contains personal or case identifying information.

Definition: Measured as the recorded birthdate of the defendant.

Source: The primary source of this information was the OES eMagistrate System. If the information was not available in the primary source, the information was collected from the OES Court Case Management System, as well as Fairfax County and Alexandria Circuit Court Case Management Systems.

Notes: The information provided to staff from the eMagistrate System only contained a scramble key for each defendant's key identifying information (name, date of birth, social security number). The full birthdate of each defendant was obtained from the OES Court Case Management Systems, as well as Fairfax County and Alexandria Circuit Court Case Management Systems after matching between the two systems. The contact date was obtained from the OES eMagistrate System.

5. Birth Year (Defendant_BirthYear)

Definition: Measured as the recorded birth year of the defendant.

Source: The primary source of this information was the OES eMagistrate System. If the information was not available in the primary source, the information was collected from the OES Court Case Management System, as well as Fairfax County and Alexandria Circuit Court Case Management Systems.

Notes: The information provided to staff from the eMagistrate System only contained a scramble key for each defendant's key identifying information (name, date of birth, social security number). The full birthdate of each defendant was obtained from the OES Court Case Management Systems, as well as Fairfax County and Alexandria Circuit Court Case Management Systems after matching between the two systems. The contact date was obtained from the OES eMagistrate System.

6. Age of Defendant (Defendant_Age)

Definition: Measured based upon the recorded birthdate of the defendant at the time of the October 2017 contact event.

Source: The primary source of this information was the OES eMagistrate System. If the information was not available in the primary source, the information was collected from the OES Court Case Management System, as well as Fairfax County and Alexandria Circuit Court Case Management Systems.

Notes: The information provided to staff from the eMagistrate System only contained a scramble key for each defendant's key identifying information (name, date of birth, social security number). The full birthdate of each defendant was obtained from the OES Court Case Management Systems, as well as Fairfax County and Alexandria Circuit Court Case Management Systems after matching between the two systems. The contact date was obtained from the OES eMagistrate System.

7. Cohort Age Group (Defendant_AgeGroup)

Definition: Measured as the age group classification of defendants at the time of the October 2017 contact event.

Source: The primary source of this information was the OES eMagistrate System. If the information was not available in the primary source, the information was collected from the OES Court Case Management System, as well as Fairfax County and Alexandria Circuit Court Case Management Systems.

Notes: The information provided to staff from the eMagistrate System only contained a scramble key for each defendant's key identifying information (name, date of birth, social security number). The full birthdate of each defendant was obtained from the OES Court Case Management Systems, as well as Fairfax County and Alexandria Circuit Court Case Management Systems after matching between the two systems. The contact date was obtained from the OES eMagistrate System.

8. Age at Current Arrest (Defendant_AgeatCurrentArrest)

Definition: Measured as the age of the defendant at the time of the October 2017 contact event.

Source: The primary source of this information was the OES eMagistrate System. If the information was not available in the primary source, the information was collected from the OES Court Case Management System, as well as Fairfax County and Alexandria Circuit Court Case Management Systems.

Notes: The information provided to staff from the eMagistrate System only contained a scramble key for each defendant's key identifying information (name, date of birth, social security number). The full birthdate of each defendant was obtained from the OES Court Case Management Systems, as well as Fairfax County and Alexandria Circuit Court Case Management Systems after matching between the two systems. The contact date was obtained from the OES eMagistrate System.

9. Attorney Type Assigned at Case Closure (Defendant_AttorneyTypeAtCaseClosure)

Definition: Measured as the type of defense attorney assigned to the defendant at case closure.

Source: The primary source of this information was the OES Court Case Management System, as well as Fairfax County and Alexandria Circuit Court Case Management Systems.

Notes: None.

Label	Code
None/no information	0
Appointed (court-appointed)	1
Public defender	2
Both court appointed and public defender	3

Waived	5
Court designation not to impose jail time	6
Unknown, all dispositions for October 2017 contact event found in non-CMS sources	9
Unknown, charge disposition record not found or individual was excluded due to lack of criminal history records	99

10. Indigency Status (Defendant_IndigencyStatus)

Definition: Measured as a proxy indicator of whether defendant was indigent.

Source: The primary source of this information was an internal calculation based upon the “Defendant_AttorneyTypeAtCaseClosure” variable.

Notes: This variable does not capture any changes to attorney type that occurred prior to case closure. The variable also does not capture instances where the defendant would otherwise qualify as indigent pursuant to Virginia Code § 19.2-159 but had a retained attorney who provided services with costs paid by another entity or where the attorney represented the defendant pro bono. Furthermore, this variable does not capture instances where the defendant would otherwise qualify as indigent pursuant to Virginia Code § 19.2-159, but where jail time was waived such that the defendant was no longer entitled to be represented by counsel.

This variable was calculated by combining defendants assigned a public defender, court appointed attorney, or both a court-appointed and public defender at case closure for at least one charge in their October 2017 contact event.

Label	Code
Not indigent	0
Indigent (at least one charge in the October 2017 contact event indicated indigent status)	1
Unknown, all dispositions for October 2017 contact event found in non-CMS sources	9

11. Zip Code (Defendant_RecordedZipCode_eMag)

Definition: Measured as the recorded residential zip code of the defendant at the time of the October 2017 contact event.

Source: The primary source of this information was the OES eMagistrate System.

Notes: None.

12. Virginia Residency Status (Defendant_VirginiaResidencyStatus)

Definition: Measured based upon the recorded residential zip code of the defendant and whether the recorded zip code was within Virginia or outside of Virginia.

Source: The primary source of this information was the OES eMagistrate System.

Notes: None.

PRE-TRIAL RELEASE STATUS AND BOND INFORMATION

13. Whether Defendant Was Released During Pre-trial Period

(WhetherDefendantWasReleasedPretrial)

Definition: Measured as whether the defendant was released during the pre-trial period before final disposition.

Source: The primary source of this information was the OES eMagistrate System. If the information was not available in the primary source, the information was collected from the Compensation Board's Local Inmate Data System (LIDS).

Notes: Release was determined based on the date that the DC-330 was issued. If the DC-330 date was missing, it was assumed the magistrate had not released the individual on the charges in the decision event. The accused may have been released directly by the court, or the charge *nolle prosequi*, dismissed, or the accused found not guilty. However, the data does not have sufficient information to determine such cases. LIDS was used to cross-validate release information and fill in any gaps not identified by the OES eMagistrate System.

Label	Code
Not released	0
Released	1
Unclear	9

14. Pre-Trial Release Date (PretrialReleaseDate)

Definition: Measured as the pre-trial release date of the defendant (if released).

Source: The primary source of this information was the OES eMagistrate System. If the information was not available in the primary source, the information was collected from the Compensation Board's Local Inmate Data System (LIDS).

Notes: This variable is based upon the date the DC-330 (recognizance) was issued as recorded in the OES eMagistrate System.

15. Days Between Contact Event and Pre-Trial Release

(DaysBetweenContactEventAndPretrialRelease)

Definition: Measured as the number of days between the October 2017 contact event date and the pre-trial release date if released.

Source: The primary source of this information was the OES eMagistrate System. If the information was not available in the primary source, the information was collected from the Compensation Board's Local Inmate Data System (LIDS).

Notes: Time until release was calculated as the number of days between the date the DC-352 (commitment order) was issued and the date the DC-330 (recognizance) was issued. If the DC-352 was not issued (date of DC-352 is missing), then it was assumed the individual was released the same day. When the time between the DC-352 and DC-330 was negative, the result was recoded as missing. The Compensation Board's LIDS was used to verify release information and fill in any gaps not identified by the OES eMagistrate System. An individual who was brought before a magistrate for a bond hearing in the evening and released the next morning (i.e., less than 24 hours later), is scored as having been released on Day 1.

16. Pretrial Release Type - Version 1 (PretrialReleaseType1)

Definition: Measured as classification of pretrial release type with detail – version 1.

Source: The primary source of this information was an internal Virginia Criminal Sentencing Commission staff calculation based on combining two variables: "BondTypeAtRelease_v1" and "WhetherDefendantReceivedPretrialServicesAgencySuperv_PTCC".

Label	Code
Not released pretrial	0
Personal recognizance without pretrial services agency supervision	1

Unsecured bond with pretrial services agency supervision	7
Secured bond with pretrial services agency supervision	8
Cannot determine bond type (insufficient information, bond type at release unclear)	9

17. Pretrial Release Type – Version 2 (MASTER_PretrialReleaseType_2ndVersion)

Definition: Measured as classification of pretrial release type with detail – version 2.

Source: The primary source of this information was an internal Virginia Criminal Sentencing Commission staff calculation based on combining two variables: "BondTypeAtRelease_v1" and "WhetherDefendantReceivedPretrialServicesAgencySuperv_PTCC".

Notes: Personal recognizance bond and unsecured bond were combined.

Label	Code
Not released pretrial	0
Personal recognizance or unsecured Bond without pretrial services agency supervision	1
Summons without pretrial services agency supervision	2
Secured bond without pretrial services agency supervision	3
Personal recognizance or unsecured bond with pretrial services agency supervision	4
Special case: summons with pretrial services agency supervision	5
Secured bond with pretrial services agency supervision	6
Cannot determine bond type (insufficient information, bond type at release unclear)	9

18. Bond Type at Initial Contact (BondTypeAtInitialContact)

Definition: Measured as the initial bail determination at the defendant's October 2017 contact event.

Source: The primary source of this information was the OES eMagistrate System. If the information was not available in the primary source, the information was collected from the OES Court Case Management System, as well as Fairfax County and Alexandria Circuit Court Case Management Systems.

Notes: In a small number of cases, the defendant was ordered more than one type of bond for the charges in their October 2017 contact event. In such instances, a hierarchy was applied to select the most restrictive type of bond ordered. From most restrictive to least restrictive: secured bond, unsecured bond, personal recognizance, summons.

Label	Code
Held without bond	1
Secured bond	2
Unsecured bond	3
Personal recognizance bond	4
No decision at magistrate, judge bond hearing	5
Released on summons	6
Direct indictment, initial bond type unknown	7
Insufficient/missing information	9

19. Bond Amount at Initial Contact (BondAmountAtInitialContact)

Definition: Measured as the initial bond amount set by the magistrate at commitment or release (if released immediately) at the defendant's October 2017 contact event.

Source: The primary source of this information was the OES eMagistrate System.

Notes: Bond amounts were not summed across charges, but rather the aggregate amount for all charges in the contact event was repeated in the data for each charge. For example, if a defendant was charged with three offenses, the total amount set by the judicial officer for all three charges will be shown.

20. Bond Type at Release – Version 1 (BondTypeAtRelease_v1)

Definition: Measured as bond type at release (if released) – version 1.

Source: The primary source of this information was the OES eMagistrate System. If the information was not available in the primary source, Virginia Criminal Sentencing Commission staff attempted to identify within the Compensation Board's LIDS database followed by the Court Case Management Systems (CMS), and finally, by calling individual Clerks' Offices to determine the bond type at release.

Notes: For the category of 1= not released: this includes those that remained held without bond, as well as those who could not meet the terms/conditions of release set by the judicial officer. This dataset only captures bond type at initial contact and at ultimate release (if released). The dataset does not capture modifications to bond type or bond conditions in between initial contact and ultimate release (if released).

Label	Code
Not released	1
Secured bond	2
Unsecured bond	3
Personal recognizance bond	4
Bond set but coded as unable/unwilling/change accused conditions – no release information found	5
Released on summons	6
Release confirmed in LIDS but bond type cannot be determined	7
Insufficient/missing information	9

21. Bond Type at Release – Version 2 (BondTypeAtRelease_v2)

Definition: Measured as bond type at release (if released) – version 2.

Source: The primary source of this information was the OES eMagistrate System. If the information was not available in the primary source, Virginia Criminal Sentencing Commission staff attempted to identify within the Compensation Board's LIDS database followed by the Court Case Management Systems (CMS), and finally, by calling individual Clerks' Offices to determine the bond type at release.

Notes: Personal recognizance bond and unsecured bond were combined. For the category of 1= not released: this includes those that remained held without bond, as well as those who could not meet the terms/conditions of release set by the judicial officer. This dataset only captures bond type at initial contact and at ultimate release (if released). The dataset does not capture modifications to bond type or bond conditions in between initial contact and ultimate release (if released).

Label	Code

Personal recognizance or unsecured bond	3
Bond set but coded as unable/unwilling/change accused conditions – no release information found	5
Released on summons	6
Release confirmed in LIDS but bond type cannot be determined	7
Insufficient/missing information	9

22. Bond Amount at Release (BondAmountAtRelease)

Definition: Measured as the bond amount at release in dollars.

Source: The primary source of this information was the OES eMagistrate System.

Notes: Bond amounts were not summed across charges, but rather the aggregate amount for all charges in the contact event was repeated in the data for each charge. For example, if a defendant was charged with three offenses, the total amount set by the judicial officer for all three charges will be shown. This dataset only captures bond amount at initial contact and at ultimate release (if released). The dataset does not capture modifications to bond amount in between initial contact and ultimate release (if released).

23. Whether Defendant Received Pretrial Services Agency Supervision (WhetherDefendantReceivedPretrialServicesAgencySuperv_PTCC)

Definition: Measured as whether the defendant received pretrial services agency supervision.

Source: The primary source of this information was the Department of Criminal Justice Services' (DCJS) Pretrial and Community Corrections Case Management System (PTCC).

Notes: Only those clearly ultimately placed (Codes 1, 2, and 3) were counted as actually receiving pretrial services agency supervision.

Label	Code
Never referred	0
Ultimately placed (clear)	1
Ultimately placed (with bundling)	2
Ultimately placed (while continuing supervision/related with previous placement)	3
Referred for supervision but did not start	4
Started or referred only after new FTA charge/ new offense	5
Cannot determine (e.g., conflict of information among data sources)	9
Pretrial services supervision with summons (actually placed) – possible other serious accompanying charges not accounted for	99

24. Days Release Active Supervision

(DaysBetweenReleaseandActivePretrialServicesAgencySupervDate)

Definition: Measured as the number of days between the pre-trial release date and the active pretrial services agency supervision start date.

Source: The primary source of this information was collected from the OES eMagistrate System. If the information was not available in the primary source, the information was collected from the Department of Criminal Justice Services' (DCJS) Pretrial and Community Corrections Case Management System (PTCC) and the Compensation Board's Local Inmate Data System (LIDS).

Notes: *This variable only applies to defendants who actually received pretrial services agency supervision.*

25. Days Referral Active Supervision

(DaysBetweenPretrialServicesAgencySupervReferralDateandSupervDate)

Definition: Measured as the number of days between the pretrial services agency supervision referral date and the active pretrial services agency supervision start date.

Source: The primary source of this information was collected from the Department of Criminal Justice Services' (DCJS) Pretrial and Community Corrections Case Management System (PTCC).

Notes: *This variable only applies to defendants who actually received pretrial services agency supervision.*

26. Presumptive Denial of Bail (Indicator_PresumptiveDenialOfBail_19.2_120)

Definition: Measured as a proxy indicator for whether the defendant met conditions for presumptive denial of bail per Virginia Code §19.2-120.

Source: The primary source of this information was an internal Virginia Criminal Sentencing Commission staff determination based upon Code section conditions.

Notes: *This is a very limited variable as it will only provide an "at least" amount of contact events/defendants that meet the conditions outlined in the given statute.*

Label	Code
Offense is not specifically listed in 19.2-120 (may still be covered under B5 or B6)	0
Offense is covered if certain conditions are met	1
Offense is covered (or certain conditions are sufficiently met)	2
Unknown/missing information	9

27. Indicator- Required to Release on Secure Bond

(Indicator_ConditionsToBeReleasedSecuredBond_19.2_123)

Definition: Measured as a proxy indicator for whether the defendant met conditions for requiring the judicial officer to impose a secured bond per Virginia Code §19.2-123.

Source: The primary source of this information was an internal Virginia Criminal Sentencing Commission staff calculation based upon Code section conditions.

Notes: None.

Label	Code

Eligible on both 1&3	5
Eligible on both 2&3	6
Eligible on all three conditions	7

28. For Defendants Released on Secured Bond - Type of Surety

(IfReleasedonSecuredBond_TypeofSurety)

Definition: Measured as the type of surety used to post bond for defendants who were released on a secured bond.

Source: The primary source of this information was collected from the OES eMagistrate System.

Notes: *This variable only applies to defendants who were released on a secured bond during the pre-trial period.*

29. Bail Terms by Court (Indicator_BailTermSetByCourt_eMag)

Definition: Measured as a proxy indicator for whether defendant met conditions for the judicial officer to set bail in accordance with the order of the court on a capias per Virginia Code §19.2-130.1.

Source: The primary source of this information was collected from the OES eMagistrate System.

Notes:

Label	Code

30. Jail Time October 2017 Cohort (AdditionalJailTimeServedAfterInitialPretrialRelease)

Definition: Measured as any *additional* jail time (in days) served after a defendant was released for their October 2017 contact event charges until the final disposition date.

Source: The primary source of this information was collected from the OES eMagistrate System. If the information was not available in the primary source, the information was collected from the Compensation Board's Local Inmate Data System (LIDS).

Notes: Jail time relates to any additional jail time served after an individual was released for their October 2017 contact event charges. Jail time is independent (mutually exclusive) from any jail time initially served for the October 2017 contact event charges. Therefore, jail time can relate not only to the October 2017 contact charges but also to prior/subsequent charges that resulted in detention prior to the final disposition date for the October 2017 contact charges.

OCTOBER 2017 CONTACT EVENTS

31. Cohort Contact Date (Oct2017_ContactEventDate)

Definition: Measured as the date of the October 2017 contact event.

Source: The primary source of this information was the OES eMagistrate System. If the information was not available in the primary source, the information was collected from the OES Court Case Management System, as well as Fairfax County and Alexandria Circuit Court Case Management Systems.

Notes: None.

32. Cohort Contact Type (ContactEventType)

Definition: Measured as cohort contact type for the October 2017 contact event.

Source: The primary source of this information was collected from the OES eMagistrate System. If the information was not available in the primary source, the information was collected from the OES Court Case Management System, as well as Fairfax County and Alexandria Circuit Court Case Management Systems.

PRIOR IN-STATE CRIMINAL HISTORY RECORD

164. Pending Charge - VPRAI definition (PendingChargeatTimeofContactEvent_VPRAIdefinition)

Definition: Measured by whether the defendant had a pending charge at the time of the October 2017 contact event based on the Virginia Pretrial Risk Assessment Instrument (VPRAI) definition.

Source: The primary source of this information was the defendant's Virginia State Police criminal history record. If the information was not available in the primary source, the information was collected from the OES Court Case Management System, as well as the Fairfax and Alexandria Circuit Court Case Management Systems.

Notes: this variable was calculated based on the definition of pending charge in the Virginia Pretrial Risk Assessment Instrument (VPRAI) Instruction Manual. A defendant is counted as having a pending charge if there were one or more charges for jailable offenses pending in a criminal or traffic (not civil) court at the time of arrest. A pending charge is defined as when there is an open criminal case that carries the possibility of a period of incarceration, and the pending charge has an offense date that is before the offense date of the current charge. A charge with a disposition of "deferred" is not counted as a pending charge under this definition.

311. Gini Index (GiniIndex)

Definition: measured as the Gini Index estimate.

Source: U.S. Census Bureau, 2010 Census

Notes: the Gini Index is a summary measure of income inequality. The Gini coefficient incorporates the detailed shares data into a single statistic, which summarizes the dispersion of income across the entire income

distribution. The Gini coefficient ranges from 0, indicating perfect equality (where everyone receives an equal share), to 1, perfect inequality (where only one recipient or group of recipients receives all the income). The Gini is based on the difference between the Lorenz curve (the observed cumulative income distribution) and the notion of a perfectly equal income distribution. See <https://www.census.gov/topics/income-poverty/income-inequality/about/metrics/gini-index.html>

Source: U.S. Census Bureau, 2017 Population Estimates, Retrieved from

<https://demographics.coopercenter.org/population-estimates-age-sex-race-hispanic-towns/>

Notes: “Origin” can be viewed as the heritage, nationality group, lineage, or country of birth of the person or the person’s parents or ancestors before their arrival in the United States. The U.S. Census Bureau adheres to the U.S. Office of Management and Budget’s (OMB) definition of ethnicity. There are two minimum categories for ethnicity: Hispanic or Latino and Not Hispanic or Latino. OMB considers race and Hispanic origin to be two separate and distinct concepts. Hispanics and Latinos may be of any race. Thus, the percentage of Hispanic should not be added to the percentages for the racial categories. Hispanic or Latino refers to a person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin regardless of race. *See, e.g.,* <https://www.census.gov/quickfacts/fact/note/US/RHI725219>

DISPOSITION OF OCTOBER 2017 CONTACT EVENTS

547. Final Disposition for All October 2017 Contact Event Charges at Conviction: version 1 (FinalDispositionAllCharges_v1)

Definition: measured as the final disposition of all charges in the October 2017 contact event.

Source: the primary source of this information was the OES Court Case Management System, as well as the Fairfax and Alexandria Circuit Court Case Management Systems. If the information was not available in the primary source, the information was collected from the defendant's Virginia State Police criminal history record.

Notes: Final dispositions include: convicted of at least one charge in contact event, dismissed, *nolle prosequi*, not guilty, pending (as of December 31, 2018), or other. A final disposition of "dismissed" includes charges that were dismissed before or during the trial of matter, as well as charges that were deferred and ultimately dismissed between October 1, 2017, and December 31, 2018. A disposition status of "pending" includes charges in the contact event without a final case disposition as of December 31, 2018, to include charges that were in deferred status. If multiple charges in the contact event were heard on the same day and resulted in varying final dispositions of dismissed, *nolle prosequi*, or not guilty, then the following hierarchy rule applies for classification of the final disposition of the contact event: not guilty, dismissed, *nolle prosequi*, other. If multiple charges in the contact event were heard on different days and resulted in varying final dispositions of dismissed, *nolle prosequi*, or not guilty, then the contact event was classified using the most recent final disposition. For example, if one charge from the contact event resulted in a final disposition of not guilty on December 2, 2018, and another charge resulted in a final disposition of dismissed on October 15, 2018, then the contact event would be classified as "not guilty" because the most recent final disposition occurred in December 2018. Codes of mistrial (M), RES (resolved), withdrawn (W), and complied with law (CL) were classified as "dismissed." The code of not guilty by reason of insanity (NGRI) was classified as "not guilty."

COURT APPEARANCE AND PUBLIC SAFETY OUTCOMES

564. New FTA (FollowUp_ChargedWithNewFTA)

Definition: Measured as whether the defendant was charged with a new failure to appear (FTA) offense, including contempt of court for FTA.

Source: The primary source of this information was the defendant's Virginia State Police (VSP) criminal history record. If the information was not available in the primary source, the information was collected from the OES Court Case Management System, as well as the Fairfax and Alexandria Circuit Court Case Management Systems.

Notes: Includes charges of failure to appear issued pursuant to Virginia Code §§ 19.2-128, 18.2-456, 16.1-69.24, 29.1-210, 46.2-936, 46.2-938, or 19.2-152.4:1 prior to the final disposition of the charges in the October 2017 contact event. Charges under Virginia Code §§ 16.1-69.24 and 46.2-938, as well as general contempt of court charges under Virginia Code § 18.2-456, were only included if the charge description indicated that the charge was based on a failure to appear. A methodology was not able to be developed to determine if all FTA charges were linked specifically to the October 2017 contact event. However, staff was able to determine that approximately 80% of defendants charged with FTA during the pre-trial period did not have a pending criminal charge at the time of the October 2017 contact event. Approximately 20% of defendants charged with FTA during the pre-trial period did have a pending criminal charge at the time of their October 2017 contact event; but, it was unclear if their new FTA charge was related to the pending criminal charge or to the October 2017 contact event. It was also determined that, at most, 6% of FTA charges during the pre-trial period may have been in relation to a civil matter (i.e., failure to pay child support). Finally, if the defendant was arrested for a new offense during the pre-trial period and was subsequently charged with FTA during the pre-trial period, the methodology was not able to clearly determine whether the FTA charge was related to the October 2017 contact event or to the new offense.
